# FACULTY WHO INSPIRE

## INDIANA UNIVERSITY HEALTH PHYSICIANS (IUHP)

IU Health Physicians Emergency Medicine offers physicians and advanced providers a full spectrum of career options, the resources of the largest healthcare system in Indiana, and the ability to maintain autonomy in practice. The size of the group allows physicians and advanced providers to grow professionally as their interests, experience, career objectives, and personal goals develop and change.

## INDIANA UNIVERSITY SCHOOL OF MEDICINE (IUSM)

The IU School of Medicine Department of Emergency Medicine offer physicians opportunities to work in a statewide network of emergency departments. All of which strive to set new standards of training for medical students, residents, fellows and pre-hospital providers while providing quality care for a diverse patient population.

### WHY THEY CHOOSE

#### Luke Schafer, MD

"The unique camaraderie of the group as well as a tremendous opportunity to care for a vulnerable patient population and educate the next generation of emergency physicians."

#### Frances Russell, MD

"The many opportunities working here has afforded me. There are so many talented educators and researchers willing to mentor and collaborate."

## Benefits

Work in a supportive, collegial and consistently enjoyable environment everyday full of unparalleled leadership opportunities. Resources and mentorship are available for academic growth and wellness. All postings are dually employed with IUSM and IUHP.

### ACADEMICS

ACGME accredited emergency medicine and emergency medicine/pediatrics residency programs, multiple ACGME accredited fellowships.

### PERKS

Generous CME allowance, licensure, DEA, CSR, ISMA, EM Board expenses, ACEP and SAEM annual membership, public service loan forgiveness eligibility.

### SALARY

Competitive salary, annual discretionary bonus opportunities.

### BENEFITS

Generous employer sponsored 407b retirement plan, medical (including HSA and FLEX saving options), dental, vision, life insurance, short and long-term disability insurance.

## Job Builds

Our mission is to lead the practice of emergency medicine, teach and educate future EM physicians, and create/ disseminate knowledge. Academic positions contain dedicated research time with opportunities to pursue areas of interest. We hold to the highest standards of professionalism and believe wellness is critical to long term academic success.

### ACADEMIC

Practice at high-volume, Level 1 trauma centers in downtown Indianapolis. Our three teaching hospitals (private, county, and children's) care for a broad and diverse group of patients along with the resources to provide outstanding patient care.

### SUBURBAN/LOW VOLUME SUBURBAN

Opportunity to practice in several different work environments at one of our Indianapolis Suburban hospitals. From high-volume, level 3 trauma centers to low volume critical access hospitals, there are countless opportunities for providers to decide which patient population best fits their professional needs. All Suburban physicians have full faculty appointments thus striving to achieve the same mission and vision as academic peers.

### SPLIT MODEL

Blend hours between academic and suburban hospital sites.
